PROFESSIONAL SUMMARY

Software Engineer with hands-on experience developing web applications and REST APIs. Solid foundation in software development, databases, and modern programming technologies, with experience working in Agile/Scrum teams and contributing to real-world projects. Analytical problem-solver with an interest in cloud computing and artificial intelligence, focused on building practical and reliable software solutions.

PROFESSIONAL EXPERIENCE

Aacrom **Costa Rica**
Frontend Developer *April 2026 – August 2026*

- Developed frontend features for an enterprise platform using Next.js, React, TypeScript, and Tailwind CSS, following Feature-Sliced Design (FSD) and modular architecture practices.
- Consumed REST APIs to implement data-driven functionality across authentication, users, clients, projects, milestones, billing, payments, notifications, and financial dashboards.
- Implemented authentication and authorization flows, including Google, Microsoft, and email authentication, session management, protected routes, role-based access control (RBAC), and multi-tenant user management.
- Developed complex business workflows involving project creation, milestone validation, approval and rejection processes, Project Manager assignment, billing authorization, invoice management, and payment tracking.
- Implemented business rules and data validation for contractual information, billing milestones, tax calculations, user management, and client data, ensuring consistency between frontend operations and backend services.
- Collaborated in an Agile/Scrum environment using Git and pull requests, working with backend services and other team members to deliver and refine application features.

PROJECTS

KidsTube, Video Platform for Children **Costa Rica**
FullStack Project *April 2025 – May 2025*

- Independently designed and delivered a full-stack video platform for children, demonstrating end-to-end ownership.
- Developed REST API and GraphQL endpoints with Node.js and Express and a PIN-based access-control system.
- Designed and managed the MongoDB database schema and built playlist/video management features.
- Integrated frontend and backend services using Node.js.

EDUCATION

Universidad Técnica Nacional **Costa Rica**
Bachelor's Degree in Software Engineering *2025 - 2026 (Aug)*

Universidad Técnica Nacional **Costa Rica**
Associate's Degree in Information Technology *2023 - 2025*

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, TypeScript, Python, Java, C#, PHP
- **Frontend:** React, Next.js, Vue.js, Tailwind CSS, Responsive Design, Component-Based Architecture, Feature-Sliced Design (FSD)
- **Backend & APIs:** Node.js, Express.js, Nest.js, .NET, Laravel, MVC, REST APIs, GraphQL
- **Databases:** PostgreSQL, MySQL, SQL Server, MongoDB

- **Cloud & DevOps:** AWS, Docker, CI/CD Concepts
- **Development Practices:** Agile/Scrum, REST API Design, Git, Pull Requests, AI-Assisted Development
